

Velena Wall Panels

Manufactured from sheet-molding compound plastic (SMC), Velena Wall Panels provide a stylish yet practical wall finish, without any annoying grout lines.

Why choose Velena Wall Panels?

- + Available in three contemporary designs
 - Large tile, brick tile and hexagonal tile
- + Three panel sizes: 36x84", 48x84", 60x84"
 - 96" panels available for special order - contact sales for details
- + Choice of stylish colors – cool white and dark gray
- + Lightweight yet extremely hard-wearing alternative to ceramic tile
- + Glass fiber reinforced plastic offers high strength and an extremely durable finish
- + Much easier to maintain and clean than ceramic tiles
- + Panels cover large sections of the wall with minimal joins which reduces the risk of leaks
- + Eliminates need for grout and the tricky cleaning that comes with it
- + Panel strength means accessories such as shower seats and grab bars can easily be fitted and used without any damage to the surface finish
- + Panels are impervious to water, ensuring the overall integrity of the installation
- + Durability of SMC means they are ideal for use in bathrooms with a higher care need
- + Limited lifetime warranty
