

Product Overview

The pre-sloped Tuff Form Linear Tub Replacement Shower Base is made using lightweight yet durable compression molded glass-reinforced plastic (GRP) and can support up to 840lbs without modifying joists. This base benefits from a high-flow linear drain and once waterproofed can be finished with decorative tile or stone.

Tuff Form Linear Tub Replacement bases are designed to replace a bathtub when no longer practical, and offer the timeless advantage of level-entry access, which makes the shower easier to clean, safer to use, and more accessible to seniors, people with health conditions, or those in wheelchairs.

Features & Benefits

- + Made from lightweight yet strong compression molded glass-fiber reinforced plastic (GRP), ideal for accessible showers
 - + Install on wood or engineered joist systems, on subfloor, or concrete
 - + Can support up to 840lbs when installed on 16" o.c. joist systems supplemented with perimeter and drain hole blocking
 - + Curbless, barrier-free design increases safety by reducing trip hazards and providing access for seniors, people with disabilities, or those in wheelchairs
 - + Waffle design on underside of base increases strength while reducing weight
 - + Cut and drill as needed with standard power tools; base can be trimmed on all sides (up to 4" from drain)
 - + Enlarge size of the shower base using AKW Pitch Extension Panels
 - + Can be used to create an ADA compliant shower, seek guidance locally for more information about compliancy and building regulations
- + Pre-drilled, countersunk pilot holes along perimeter for easy installation
 - + 4 pre-sloped gradient planes for quick, efficient drainage which reduces the risk of pooling or flooding
 - + Integrated drain gulley with up to 3 outlets to connect to 2" drain line; gulley must hang freely between joists and not be obstructed
 - + Install multiple connectors to accommodate higher flow showers with volumes of up to 17 gallons per minute
 - + Choice of heavy-gauge stainless-steel solid, slotted or tile-in linear drain covers in a variety of finishes
 - + Tile-in drain covers can be tiled to match the rest of the shower floor for an enhanced cosmetic finish, and can accommodate tile between 1/4"-5/8" thick
 - + All Tuff Form Linear Tub Replacement Drain Covers are supplied with a 2" drain connector, additional connectors are available a la carte
 - + Complete installation with an AKW Waterproofing Kit (available a la carte)
 - + Finish with decorative tile or stone
 - + Durable and re-useable; remove and replace tile without damaging the structure of the base

Technical Specification

- + Size: 59" x 35 1/2"
- + Material: Compression molded glass-fiber reinforced plastic (GRP)
- + Weight capacity: 840lbs
- + Weight: approx. 45 1/2lbs
- + Gradient: ≥2% per foot
- + Spans 16" o.c. joist systems
- + Perimeter: 7/8" thick
- + Drain hole diameter: 6"
- + Compatible with up to 3 standard 2" drain connectors
- + Requires a Tuff Form Linear Tub Replacement Drain Cover (a la carte)
- + 1 x 2" drain connector supplied with drain cover
- + Suitable for use with underfloor heating
- + Can be finished with tile or stone

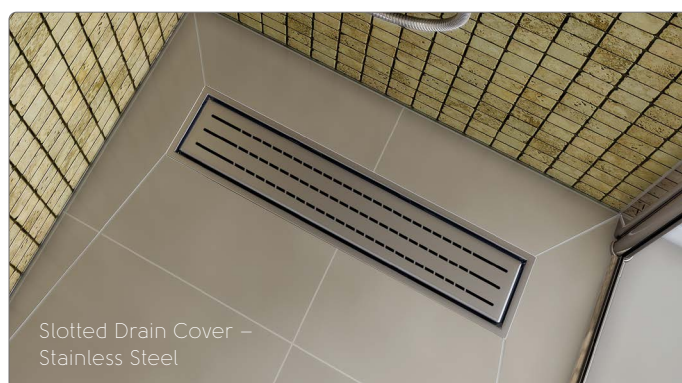

Compliance

a. ICC PMG-1223 lists compliance with:

- 1 2015, 2012 and 2009 International Residential Code® (IRC)
- 2 2015, 2012 and 2009 International Plumbing Code® (IPC)
- 3 2015, 2012 and 2009 Uniform Plumbing Code® (UPC)
- 4 2010 and 2005 National Plumbing Code of Canada (NPC)
- 5 IAPMO PS106-2015e1 for prefabricated, tileable shower receptors
- 6 CSA B45.5/IAPMO Z124-2011, Plastic Plumbing Fixtures

b. QAI Laboratories test report no. RJ4241-1:

- 1 Meets conditions of classification for 30-minute flame spread index and smoke developed index per ASTM E84 requirements

Warranty & Approvals

- + AKW Limited lifetime warranty on Shower Base and Drain Assembly
- + 10-year Sioux Chief warranty on Drain Connector
- + Can be used to create an ADA compliant shower
